7.7% of Cetylated Esters and vegetable components.

DERMATOLOGICALLY TESTED

---

## CATEGORY OF BELONGING

Medical device for external use.

## PROPERTIES AND INDICATIONS

DOLORBLOCK® cream is a preparation for topical use, based on cetylated esters and vegetable extracts. Thanks to the chemical-physical properties of the constituents, the product facilitates and supports the decongestant action of massage, helping to relieve osteoarticular and muscle pains and to improve breast tenderness while maintaining normal physiological conditions. When carefully applied on affected parts, it helps to improve joint movement in case of pains concerning Tendons, Muscles and Joints: on hands and feet, on elbows and knees. Furthermore, the cream can be an effective remedy against any kind of breast tension disorders.

## INGREDIENTS

Aqua, Glycerin, Olea Europaea Fruit Oil, Glyceryl Stearate, Butylene Glycol, Caprylic/Capric Triglyceride, Cera Alba, Boswellia Serrata Resin Extract, Prunus Armeniaca Kernel Oil, Cetyl Alcohol, Phenoxyethanol, Carbomer, Lecithin, Menthol, Microcrystalline Cellulose, Isopropyl Myristate, Zingiber Officinale Root Extract, Ethylhexylglycerin, Sodium Hydroxide, Triticum Vulgare Germ Oil, Tocopheryl Acetate, Polyperfluoromethylisopropyl Ether, Silica, Tocopherol, Ascorbyl Palmitate, Citric Acid.

## DOSAGE AND ADMINISTRATION

External treatment for joints, muscles and breasts: apply morning and evening, 2/3 times a day or as needed, on the affected parts only and gently rub until complete absorption of the cream.

## WARNINGS

For external usage only and on intact skin. Avoid contact with eyes and mucous membranes. In the event of contact wash out with water. Avoid ingestion. Keep out of reach of children. Consult your doctor or chemist before using the product, especially in case of pregnancy or if breastfeeding or in case of concomitant use of other topical products or medications. Under normal conditions of use, there is no experience with overdose of DOLORBLOCK®. All products for topical use, in prolonged use, may give rise to sensitization cases. Where this occurs, discontinue treatment and consult your doctor in order to establish appropriate therapy. Do not use in case of confirmed hypersensitivity to one or more components.

## PRECAUTIONS FOR PRODUCT STORAGE

Store the product at room temperature in a cool, dry place away from heat sources. Do not use beyond the expiry date indicated on the package or if it is not intact.

## PACKAGE

50 ml tube.
